for pallets**

2903

Automatic machine for horizontal strapping of pallets

Fast, reliable and quality strapping.
Easy to program thanks to its new touch panel.
You can store up to 50 different strapping programs.
You can strap at any height from 140 mm from the ground.
It allows strapping up to 20 different heights on the same pallet.
Long useful life of the equipment and little maintenance.
Protection and security systems.
It can be integrated into an automatic line or work alone.
Production of more than 60 pallets per hour.
Light indicator of operation.

OPTIONS:

High speed version.
CRC technology for repositioning corners.
Electronic tension control.
VPN access to machine software.

The control panel has been completely redesigned with a touch screen and a new & more intuitive interface.

The arch incorporates a LED indicator light with different colors to show the status of the machine at all times.

GENERAL CHARACTERISTICS

REQUIRED VOLTAGE: 220 V / 380 V · 50 / 60 Hz · 3 Phases

POWER: 2 Kw

PRODUCTION: 1 pallet / min (5 straps)

MACHINE DIMENSIONS:

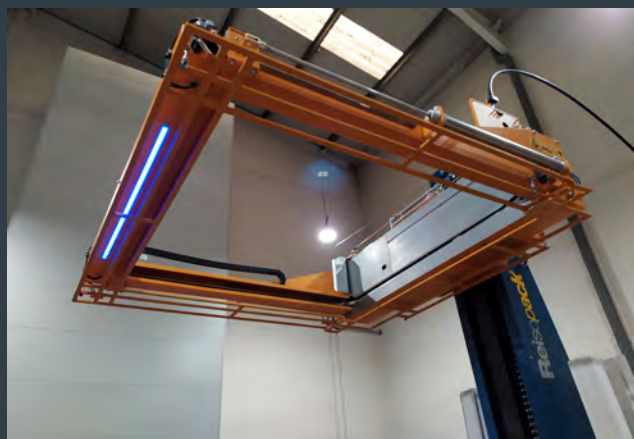

1850 (W) x 2915 (L) x 3537 (H) mm

TECHNICAL SPECIFICATIONS

STRAP WIDTH: 11 - 12 mm

WELDING: Adjustable
Electrical heating.

STRAP THICKNESS: 0,5 - 0,7 mm

Edition 06/22 · The manufacturer reserves the right to make changes without prior notice.
