

**The best pallet strapping
machine in the world**

Strapper
**Automatic multi-station
with corner placer**

2915

Pallet strapping machine with automatic placement of corners in multiple stations.

The machine automatically places the corner pieces.
The strapping machine moves laterally between four stations.
It has a production of more than 60 pallets per hour.
Easy to program touch screen control panel.
It allows memorizing up to 50 different strapping programs.
You can strap at any height from 140 mm from the ground.
Up to 20 different strapping heights in a same pallet.
Allows integration into an automatic line.
Long useful life of the equipment and little maintenance.
It allows to have all the pallets pending strapping ordered.
Compact the load before strapping.
Maximum time savings in pallet feeding.
Allows last minute manipulations in the strapping area.

OPTIONS:

- High speed version.
- CRC technology for repositioning of corner pieces.
- Electronic tension control.
- VPN access to machine software.
- 5 corner arms version.

The control panel has been completely redesigned with a touch screen and a new, more intuitive interface.

The arc incorporates an LED indicator with different colors to show the status of the machine at all times.

GENERAL CHARACTERISTICS

REQUIRED VOLTAGE: 220/380 V · 50/60 Hz · 3 Phases

POWER: 2 Kw **PRODUCTION:** 1 pallet / min (5 straps)

MACHINE DIMENSIONS
2902 (W) x 4180 (L) x 4550 (H) mm

TECHNICAL SPECIFICATIONS

STRAP WIDTH: 11 - 12 mm **WELDING:** Adjustable
Electrical heating.

STRAP THICKNESS: 0,5 - 0,7 mm

Edition 06/22 · The manufacturer reserves the right to make changes without prior notice.
